  Knox Box

  Lock Box Program

  All new buildings must provide access to the Fire Department in emergency situations. Lake Oswego Fire Department has selected the Knox company for our lock box program.

  Instructions how to obtain a lock box:

  Fire Lanes and Access Roads

  Fire access roads need to be a minimum of 20' in width. To prevent parking in the fire access road, signage on the curb or signs posted along the road are required. If a access road is 26' or more, parking is allowed on one side and if the access road is 32' or more, parking is allowed on both sides. Any access road less then 26' will not allow parking on either side.

  Request a Fire Marshal Inspection

  To request an inspection from the Fire Marshal's Office for new construction, fire alarm or sprinklers, contact our office at
  503-635-0275 preferably 48-hours in advance. If the request is less then 48-hours, we might not be able to conduct the inspection if we are not available.
