Surface Water

Surface Water Management Utility plans, designs, constructs, maintains, administers all City Surface Water conveyances and facilities, and the regulations for its control, as well as establishes standards for design and construction.

-

  Healthy Watersheds Program

  The City's Healthy Watershed's Program is the lead program in the City's efforts to protect water quality. The Healthy Watersheds program also provides technical expertise and guidance to all City departments to ensure implementation and compliance with the NPDES Permit, TMDL Water Quality Management Plans, and other surface water related issues.
