

Fire Extinguisher Classes

Fire Extinguishers are only valuable if they are used properly. The Lake Oswego Fire Department provides a free fire extinguisher training program for businesses and groups inside the fire response district.

The program consists of two parts: 1) a short film and discussion on the types of fire extinguishers and 2) a demonstration fire set outside where participants get hands-on experience putting out a small fire. The Fire Department provides all equipment and training is about 1 hour in length.

What do we need to conduct a class?

1. A Minimum of 10 People
2. Classroom
3. TV and VCR
4. Space Outside Clear of Cars
5. Garden Hose

Contact the Fire Prevention Division at 503-635-0275 for more information or to schedule your class.
