

East End Redevelopment Plan

The East End Redevelopment Plan was adopted by the City Council in 1986. The plan listed nearly two dozen projects to be completed within the district boundary. In 2004, the Council adopted a substantial amendment to the East End Plan, to reflect statutory changes, add projects and increase the Plan's maximum indebtedness. The 2004 Plan (restated in 2013 to reflect Amendment 16, effective January 17, 2013) includes a description of both completed and potential projects.

The Lake Oswego Redevelopment Agency (LORA) is directed by Council acting as the LORA Board. Present and past agendas and minutes of the Board can be found on our meetings page.

The Finance Department prepares financial reports for the Redevelopment Agency. All are available on the [Finance Urban Renewal page](#).
