

Luscher Farm Community Partners

[47th Avenue Farm](#) - We're an urban farm dedicated to growing produce for residents nearby, seasonally and sustainably. Our farm is based on a Community Supported Agriculture (CSA) model -- we grow for a set number of harvest shareholders who join us at the twice yearly. Winter Share program is from October through April with pick up twice monthly, the Summer Share program is from May through October and pick up is once weekly. If a shareholder is unable to pick up produce, the leftovers after pickup are donated to a good cause. A shareholder can always send a friend or neighbor to get your veggies for you.

To sign up for a CSA membership please contact Lake Oswego Parks & Recreation at (503) 675-2549.

[Friends of Luscher Farm](#) - A new Friends of Luscher Farm group is developing and information about the group will be available soon.

[Friends of Rogerson Clematis Collection](#) - The Rogerson Clematis Collection was formed to preserve historic clematis as well as the newest. The collection includes plants that are unique or exceptionally rare. At approximately 500 taxa and just under 900 individual plants, it is one of the largest assemblage of clematis in the Western Hemisphere. The mission of FRCC is to promote and advance the joy of growing the genus clematis through education and the preservation of the Rogerson Clematis Collection.
