

Local History Videos

We will add more videos to our online collection as we acquire them. Please enjoy our inaugural videos in the meantime!

Oregon Portland Cement - This video was contributed by Lake Oswego resident Patrick Bloedorn. As a former employee of the plant, he was on hand when the demolition took place and gained special access to the site. We are very pleased that he chose to share this video footage with the Lake Oswego Public Library. Warning: Please be advised that there is some strong language contained in the video!
