

Jean Road Fire Station

Published on City of Lake Oswego Oregon Official Website (<http://ci.oswego.or.us>)

Jean Road Fire Station

Proudly perched on the corner of Jean Road and Bryant Road, this Fire station was built in 1989 and serves the neighborhoods south of Carman Drive to the Tualatin River and east from Interstate 5 to the Blue Heron neighborhood.

The station staffs Paramedic Truck 211 with twelve career personnel that work three separate 24 hour shifts. Each shift has a company officer (a lieutenant), an apparatus operator, and a firefighter. The Truck has a 105' aerial ladder that is used to access locations with multiple floors during emergency operations. Station 211 also houses one of our reserve engines (Eng 211) and is used when the mainline apparatus is removed from service for maintenance or for extra staffing when needed.

Directions

Jean Road Fire Station 4555 Jean Road
Lake Oswego, OR 97035
