

Fun Activities

The [NFPA](#) offers important information and fun activities for kids of all ages. The “All about fire trucks” section provides a safe learning environment for children and even more family fun! Play games in the Fire Truck Arcade which include “Follow the Sounds,” a game that reinforces listening and sequencing skills, as well as the “Color a Truck” section which encourages children to use their imagination to create a fire truck. Also try the “Put Out the Fire” game that requires skill and critical thinking.
