

Public Improvement Permit

A Public Improvement Permit is required for Developers who seek to construct and install certain public improvements, which include one or more of the following actions: break up, dig up, cut, excavate or fill in any street, or construction sidewalks, curbs, gutters, or do any work in or upon any street, or install sanitary sewers, surface water management facilities, or water mains; hereinafter referred to collectively as "public improvement work".

If you would like more information please contact Ed Marsoun at 503.635.0270 or [email](#).
