WALKING TOUR OF TRYON CREEK WASTEWATER TREATMENT PLANT

On Friday, February 10, 2017, at 4:00 p.m., the Planning Commission and Commission for Citizen Involvement will meet at 195 Foothills Road, Lake Oswego, to go on a walking tour of the Tryon Creek Wastewater Treatment Plant. The public is welcome to join Commission members on the tour.

The purpose of the tour is to give the Commission an opportunity to enhance their familiarity with the Tryon Creek Wastewater Treatment Plant, which will aid them when addressing potential code amendments that would provide a process for facilitating upgrades to the plant.
